Design Principles and Aesthetics

- We wield the art of composition, balancing white space, color harmony, and visual hierarchy.
- Typography dances under our guidance, conveying messages with elegance and impact.

Branding and Identity

- We forge brand constellations:
- Logo design: Distilling essence into a single mark.
- Consistent visual identity across galaxies of touchpoints.

MAFATHI COMPUTER SYSTEM

PORTFOLIO —

Our Portfolio

Computer Solutions

- **System Integration:** Seamlessly connect hardware, software, and networks.
- **Operating System Optimization:** Ensure smooth performance across various platforms.
- **Network Security:** Implement robust security measures to safeguard data.
- **IT Consultation:** Strategic advice for technology adoption.

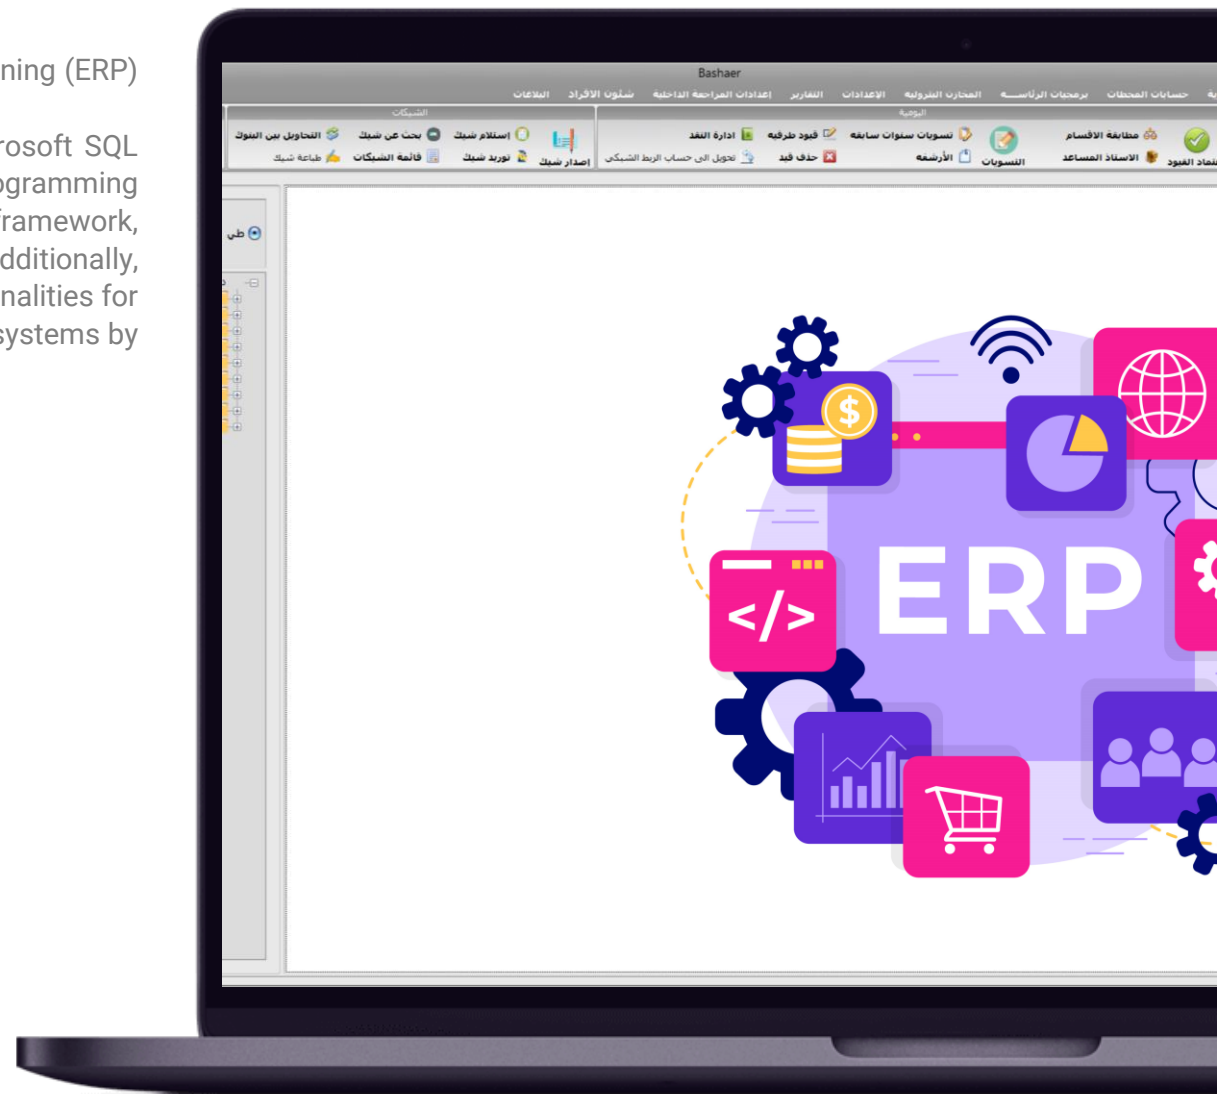

Enterprise Resource Planning

Our team successfully developed a comprehensive Enterprise Resource Planning (ERP) system specifically tailored to the needs of the petroleum industry.

This ERP system is built using a modern technology stack, leveraging Microsoft SQL Server for data storage and .NET 7 for backend development. The C# programming language is used alongside ASP.NET Core 7 to power the web application framework, while Entity Framework Core acts as an ORM for streamlined data access. Additionally, ASP.NET Core Identity provides user authentication and authorization functionalities for secure access control, This innovative solution goes beyond traditional ERP systems by offering a suite of integrated modules that work seamlessly together:

- ✓ **Human Resource Management (HRM):** Payroll, benefits, and employee data management.
- ✓ **Accounting & Financial Management:** Maintain financial records and reconcile accounts.
- ✓ **Internal Auditing & Compliance:** Ensure compliance with regulations.
- ✓ **Petroleum Inventory Management:** Maintain fuel inventory levels across depots and stations.
- ✓ **Performance Assessment:** Identify areas for improvement in employee performance.
- ✓ **Customer Relationship Management (CRM):** Identify and interact with customers based on their history and preferences.
- ✓ **Sales and Procurement Management:** Easily create orders, track them, and ensure timely delivery. It transforms ERP into a comprehensive financial management powerhouse with the integrated Banking module. Streamline operations and achieve long-term financial success with our solution. Your accounting processes will be revolutionized with this powerful addition.

LMS

Learning Management System

Modern WordPress theme purposely designed and built for **Online Training and Education!** It suits online education, training, coaching, and single-course teaching websites.

Mobile Application

ATTENDANCE VOLUNTEERS

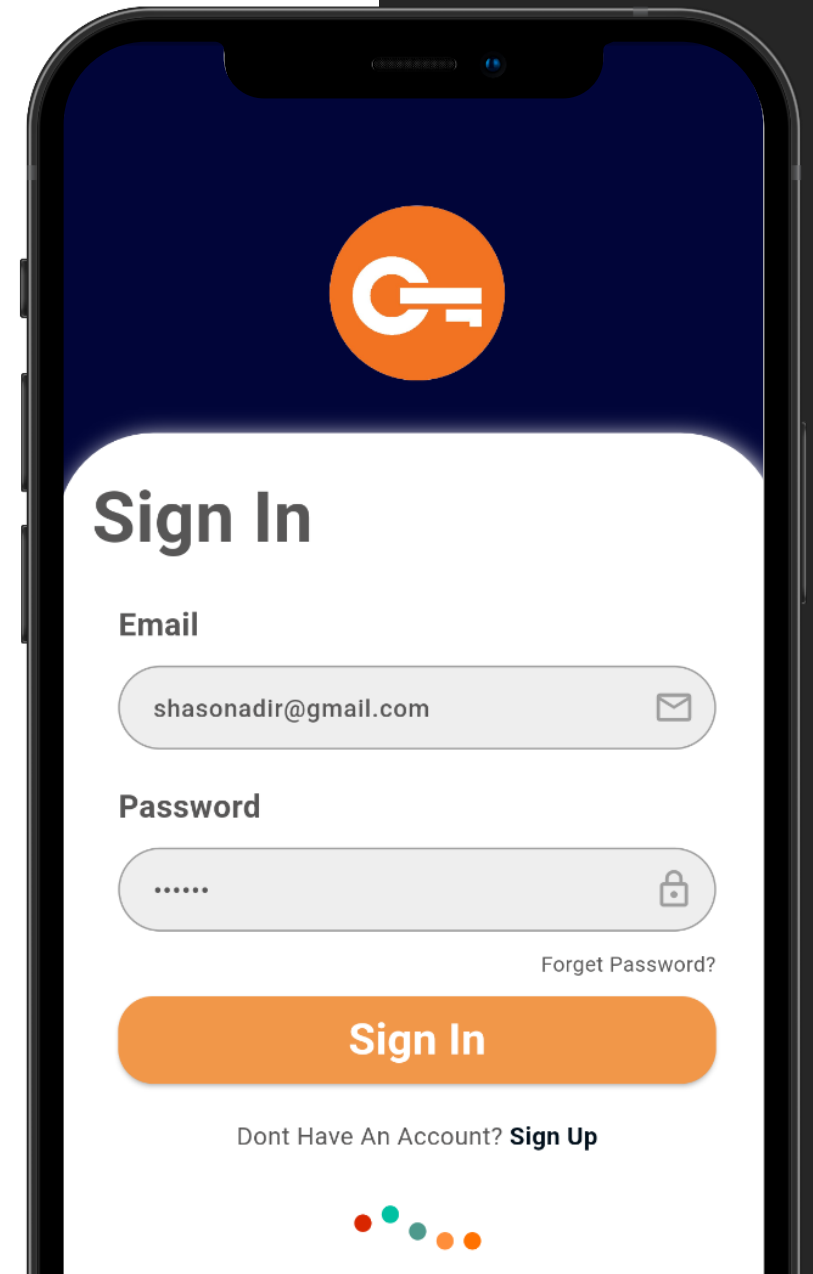

Assisting and making an effort to achieve good for society in general or for individuals in particular constitute volunteer work. The assistance may take the form of financial, physical, or intellectual assistance.

Volunteer work in all its forms has many benefits that benefit both the individual and society alike, regardless of how individuals express their desire to help others.

Mafatih Computer Systems Company team. The Emirates Volunteer Program is integrating a smart mobile app for attendance and departure that calculates volunteer hours as part of its social responsibility efforts.

Methodology for application:

- Use the Emirates Volunteers app to register for the event.
- By clicking on the login icon, you can register your attendance
- Utilize GPS technology to locate the volunteer
- Using the front camera, take a picture of the volunteer.
- The volunteer hours must be completed before logging out.
